

Minutes of September 17, 2012

The Meeting was opened at 6:30 PM.

All members were present.

The minutes of September 10th were accepted as amended.

The Board would like to schedule a meeting with the engineer to discuss the bridges in Town on Monday, September 24th at 5PM.

Mr. Will Brinker and Mrs. Barbara Marchione appeared before the Board to review and discuss the Blackboard Connect. Mr. Brinker stated that the system is simple to use and has been around for 8 to 9 years. Mr. Brinker also stated that the system can make calls to phones, faxes, email, or by text and can contact all residences every 10 minutes or everyday. Mr. Brinker stated that Blackboard has a great support team. User groups will have to be set up. Set up costs are an additional \$1,500.00 per year, which New Marlborough has already paid and has a signed contract.

Mrs. Barbara Marchione also mentioned to the Board that she would like to meet with Town Counsel regarding the letter from the Army Corps of Engineers after she has all the data together.

It was brought the attention of the Board that there are two old army trucks that need to be declared surplus property. A motion was made, seconded and so voted to declare the two army trucks as surplus property.

Being that there was no further business to be brought before the Board a motion was made, seconded and so voted to adjourn at 7:25 PM.

Respectfully submitted,

Michael Skorput
Administrative Assistant
